NEW RAVENNA® Studio Line

From the tranquil coast of Virginia's Eastern Shore, New Ravenna's expansive collection of in-stock mosaics are made by hand with the same standards for beauty and quality that we apply to our custom mosaics. The Studio Line collection features the perfect mix of our most classic patterns and popular materials, but you'll find something fresh around every corner. This collection includes calm, muted tones suitable for any space, bold colors that make a splash, and everyday basics that complement your overall design. The best part? They're all ready to ship.

Proudly made in America.
