Sustainability

Pure Specifics:

- Lead-Free
- Non-Toxic
- No VOC off-gassing

Around the Pure Factory:

- All of the water used to produce Pure is contained in a closed system so that it can be used to clean glazing equipment.
- Glaze filtered out of used water is donated to red brick companies to use in their brick formulation.
- Kilns use natural gas in substitution of petroleum gas and the emissions are controlled. The excess heat is used in driers.
- Scrap tile is ground up and reused in the body of new tile.
- Tile that doesn't make it through the QC process is donated to ONG Bairro da Juventude www.bairrodajuventude.org.br
- Pure is packaged in boxes that contain 33% recycled content and are printed with water based ink.
