TILEMAKING IS ETCHED INTO THE SOUL OF SONOMA TILEMAKERS.
IT ALL STARTS WITH PASSION, INCREDIBLE PEOPLE
AND A WHOLE LOT OF CLAY

HANDCRAFTED IN AMERICA

Since 1994, we have been making luxury tile in the heart of Sonoma County, California's wine country.

Making handcrafted tile requires skill and artistry that can only be learned from decades of experience – and we have it. We find inspiration everywhere, pushing the boundaries of design and innovation to turn our ideas into reality. We have built a team of the highest-skilled glaze gurus and clay masters to turn our dreams into reality. If we dream it, we make it.

Our mission at Sonoma Tilemakers has always been to share the unsurpassed beauty of handcrafted tile. It begins and ends with love for what we do.

THE HANDCRAFTED DIFFERENCE

It all starts with passion, incredible people and a whole lot of clay.

The handcrafted difference begins with our unique wet clay formula, allowing us to create designs with intricate details – none of which can be replicated in machine-made tile. Our glazes, all made from natural minerals and pigments, are perfected over hundreds of trials by our in-house glaze gurus. They work tirelessly, developing new hues so our tiles stay awash in distinctive, modern colors. The resulting glazes are all transparent, creating luxurious depth and movement as our most skilled tilemakers spray each tile, by hand.

Every tile leaving our factory has been touched by at least 12 sets of hands: real people crafting each tile. It's the nuances of handmade tile – the subtle imperfections and color variations – that make it special and luxurious.

If your tile is too perfect, it's not handcrafted.

EUPHORIA

RAKU FIRED IN COLORADO • SPECIAL ORDER

CHARACTERISTICS

Euphoria glaze formulations and kiln firing techniques are an evolution of the ancient Japanese art form known as Raku. Raku glazes require multiple firings, along with the use of sawdust, to achieve their metallic, distinctive look. **The result is an exquisite, handcrafted tile where every piece is unique.**

APPLICATIONS

- Interior walls
- Showers (no steam)
- Pools (except freeze thaw areas)
- Exteriors (including freeze thaw, except on horizontal surfaces where water can accumulate)
